PRODUCT OVERVIEW

These Change Parts are used with a hydrostatic tester to constrain a 3-piece aerosol can that is being side seam rupture tested. The Change Parts are manufactured by Altek to specific customer requirements.

9760 DESCRIPTION

The 9760 Change Parts constrain an aerosol can as it is being pressurized from the inside. The 9760 consists of a cage fixture, with fitted top and bottom inserts, that quick-clamps around a can before the can is mounted in the tester.

The top insert is machined to fit the can neck, while the bottom insert is molded to fit the bottom of the samples to be tested. These inserts are mounted on rings which are held together with threaded connecting rods and the bottom ring slides via an adjustable clamp. The sample is placed inside the cage and the clamp is then closed, securing the sample between the top and bottom inserts.

SPECIFICATIONS

The following document describes the specifications for these Change Parts:

CDXC1001 - Change Parts Specifications

9760 ORDERING

The 9760 is ordered by specifying 9760 and supplying several samples to Altek. Samples **MUST** be provided to ensure proper manufacture of the 9760 Change Parts.

TECHNICAL SUPPORT

Altek provides comprehensive technical support to its customers worldwide. For assistance, contact Altek and ask for the Engineering department.

REPAIR

Altek customers can obtain a return authorization from Altek and ship a faulty unit in for repair, if necessary. In addition, replacement parts for all models are available from Altek.

WARRANTY

All Altek products are built to the highest standards of quality and reliability. This Altek product is backed by a full 90-day warranty.

FURTHER INFORMATION

See the accompanying specifications for additional information concerning this product. If specifications were not included with this flier, please call Altek; they will be mailed or faxed as quickly as possible.

CUSTOM DESIGN.

Altek can custom design inspection and test equipment to meet specific customer requirements. Custom Change Parts can also be designed and manufactured for most Altek products; contact Altek for further information.

A NOTE ON SAMPLES

Samples sent to Altek as a requirement for the manufacture of Change Parts must be submitted in their "as tested" form. For instance, if an end will be tested unseamed on a piece of test equipment, Altek must receive ends that are unseamed in order to properly manufacture the Change Parts. Contact Altek for further information regarding sample requirements for Change Parts manufacture.

For more information, contact Altek between 8:00 am and 5:00 pm ET, Monday thru Friday. The Altek company address and phone numbers can be found on the front of this flier.

ORDERING INFORMATION

To purchase this product:

This flier is supplemented by additional literature in the form of a specification sheet.

These Change Parts are not required unless a can is being tested for sideseam rupture.

Customer samples are **REQUIRED** in order to ensure proper manufacture and operation of the Change Parts.

Thank you for your interest in TECH • products from Altek!
