PRODUCT OVERVIEW

These Change Parts are used with leak and buckling testers to hold a sample in place as air pressure is applied to the product side of the end. The Change Parts are manufactured by Altek to specific customer requirements.

9837 DESCRIPTION

The 9837 Change Parts hold an end in place as pressure is applied to the product side of the end. The 9837 consists of a lower adapter plate and gasket which fit onto the test unit and an upper cup and gasket that clamps down on the end during operation to affect a seal.

SPECIFICATIONS

The following document describes the specifications for these Change Parts:

CDXC1302 - Change Parts Specifications

9837 ORDERING

The 9837 is ordered by specifying 9837 and the end diameter. Example:

9837: 211 (dia)

Note that when these Change Parts are ordered, TWO SETS are supplied because the unit which uses these Change Parts tests two ends at a time. Two different sizes of Change Parts may be specified, if desired; if only one size is specified, two identical sets of Change Parts will be produced. Altek may require samples for Change Parts manufacture if the end to be tested is not an industry standard size.

TECHNICAL SUPPORT

Altek provides comprehensive technical support to its customers worldwide. For assistance, contact Altek and ask for the Engineering department.

REPAIR

Altek customers can obtain a return authorization from Altek and ship a faulty unit in for repair, if necessary. In addition, replacement parts for all models are available from Altek.

WARRANTY

All Altek products are built to the highest standards of quality and reliability. This Altek product is backed by a full 90-day warranty.

FURTHER INFORMATION

See the accompanying specifications for additional information concerning this product. If specifications were not included with this flier, please call Altek; they will be mailed or faxed as quickly as possible.

CUSTOM DESIGN.

Altek can custom design inspection and test equipment to meet specific customer requirements. Custom Change Parts can also be designed and manufactured for most Altek products; contact Altek for further information.

A NOTE ON SAMPLES

Samples sent to Altek as a requirement for the manufacture of Change Parts must be submitted in their "as tested" form. For instance, if an end will be tested unseamed on a piece of test equipment, Altek must receive ends that are unseamed in order to properly manufacture the Change Parts. Contact Altek for further information regarding sample requirements for Change Parts manufacture.

For more information, contact Altek between 8:00 am and 5:00 pm ET, Monday thru Friday. The Altek company address and phone numbers can be found on the front of this flier.

ORDERING INFORMATION

To purchase this product:

This flier is supplemented by additional literature in the form of a specification sheet.

At least one of these Change Parts sets is required for operation of an Altek leak and buckling tester.

These Change Parts are ordered by specifying the required information (as described above) on the appropriate Customer Order Guide.

Thank you for your interest in TECH • products from Altek!
